

# Minnesota Feccla Presents:

## SERVICE PROJECT FAIR @ STATE

- Did your Chapter complete a service project?
- Want to share your experience with others?

Create a Service Project Board for your chapter and bring it to present at the SLC for the Service Project Fair

Display Board Guidelines for State Leadership Conference (SLC):

- Clearly include your Chapter Name and Service Project Title at the top of your board.
- Provide a brief but strong description of your project, explaining what you did and how it made an impact.
- Highlight who or what was helped and the difference your efforts made in the community.
- Include lots of photos to visually showcase your work and engagement.

Your board should be presented on a trifold board or foam board so it can stand and be easily displayed.

During SLC, have one or two chapter members present at your board to confidently explain your project, share its impact, and answer any questions.
